IEEE Vehicular Technology Conference 2006 Fall 25 – 28 September 2006, Montreal, Canada

The 64th IEEE Vehicular Technology conference will be held from 25 to 28 September 2006 in the vibrant city of Montréal, Québec, Canada. The objective of the conference is to bring together researchers and practitioners in the field of vehicular technology. The conference will feature world-class plenary speakers, tutorials, and technical sessions. The city of Montréal is well known for its old world charm, French *joie de vivre* and a modern style all its own. The conference will take place during the world famous fall foliage season.

The technical program committee invites the submission of original, unpublished technical papers and tutorials in the areas of, but not limited to:

1. Radio Propagation
2. DSP for Multiple Antenna Systems
3. Radio Access Techniques
4. Radio Resource Management
5. Transceiver Technologies
6. Modeling and Simulation of Mobile Wireless Systems
7. Mobile Wireless Networks
8. Mobile Satellite Systems
9. Navigation and Positioning Technologies
10. Next Generation Services
11. Electro-Magnetic Compatibility Issues for Wireless and Mobile Networks
12. Circuits and Devices for Vehicular Systems
13. Transportation
14. Vehicular Industry Technology Track

Prospective authors are encouraged to submit a 5-page full paper (or a 2-page extended abstract including results) through the conference web site. All submissions will be reviewed by at least two referees.

Important Dates:

Papers and Tutorials Submission Deadline	February 13, 2006
Notification of Acceptance	May 1, 2006
Camera-Ready Papers Deadline	June 9, 2006
