

The 6th International Conference on ITS Telecommunications

THE SECOND CALL FOR PAPERS

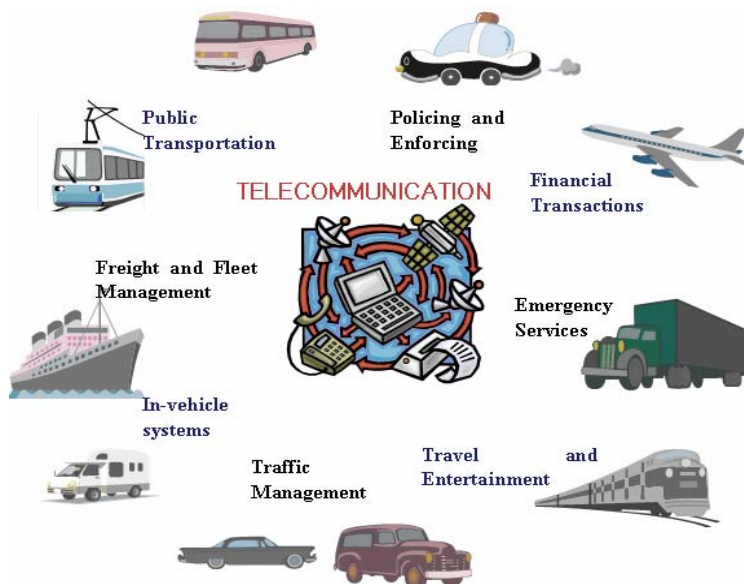

The 6th International Conference on ITS Telecommunications (ITST2006) will be held during June 21–22–23, 2006 in Chengdu, China.

After five previous editions, the conference is taking place for the first time in China. It will bring together engineers and scientists in the emerging field of Intelligent Transportation Systems (ITS), and topics not only in ITS but also in the wider field of wireless communications will be presented, given the close link between the two.

ITST2006 will provide a high-level forum within the international scientific, engineering and industrial communities to share and exchange the ideas, informations and latest results on telecommunications and ITS applications. In particular, a special session is arranged to discuss the trends in the field of Information and Communication Technologies, it will be held at the famous Jiuzhai Gou scenic area which is one of the most beautiful places in China. There will be both oral and poster sessions, with contributed and invited papers. They will include the topics of transportation policy, economics and standards, as well as infrastructures, research results, technologies and applications. Technical exhibitions and demonstrations will be held at the conference center and technical visits will also be proposed.

AREAS OF INTEREST INCLUDE, BUT ARE NOT LIMITED TO:

- Policy, Social and Institutional Issues
- Bringing Applications and Services to Vehicles
- Broadcasting
- Software Design Technologies
- Architecture, Interoperability and Standards
- Transmission Technologies
- Access Control Schemes
- Mobile IP and Network Mobility in IPv6
- Multiple Interface Management
- Ad-hoc Networks
- Sensor Networks
- In-Vehicle Communications
- Inter-Vehicle Communications
- Infrastructure to Vehicle Communications
- Antennas and Propagation, Smart Antennas
- Sensing Technologies: Radars, Lidars
- On Board Equipment, Embedded Electronics
- Device and Circuit Technologies
- RF Identification Technology
- Applications of GPS
- Trends in Information and Communication Technologies

GUIDELINES FOR SUBMISSION

Prospective authors are invited to submit electronically via the conference web site (<http://www.itst2006.uestc.edu.cn>) a full-length paper (4 pages normally and 6 pages maximum) of their work in .pdf format, including figures in black and white. The cover page must include: the title of the paper, authors' names and affiliations, contact author's name and address (both postal and electronic), keywords and submission area (from the list of relevant areas of interest). Detailed instructions for preparing the final papers will be given on the web site. The submission of a paper implies that the paper is original and has not been submitted under review or copyright protected elsewhere. The conference proceedings will be published by IEEE Press. It will be entered into IEEE Xplore database. The proceeding papers are to be indexed by EI and ISTP.

A reprint of the accepted papers (for which at least one author is registered for ITST 2006 by 30 April, 2006) will be handed out to participants on the opening day. The conference proceedings will also be distributed on CD-ROM. please notice that there will be three best paper awards with a certificate and a prize each.
